

## CONDUCT YOUR BUSINESS WITHOUT BOUNDARIES

Designed to seamlessly integrate with your core business applications, this new-generation imageRUNNER<sup>®</sup> device bridges the hard-copy and digital workflows of your organization with access that is secure, easy, and instant. The imageRUNNER 8070 device can serve as the origin of your business communications or as the destination. Whichever the case, it will quickly become an indispensable part of your document production and distribution services.

The imageRUNNER 8070 device is engineered to support large, multiuser departments with CRD-caliber performance in decentralized environments. A heavy-duty design and advanced throughput and finishing capabilities help make the imageRUNNER 8070 device the ideal fit for your volume-intensive requirements.
